No. 1 You have 2 characters that are controlled at the same time, they walk and run next to each other, they have to try in this game to destroy the incoming alien masses and find the gold that the aliens had scattered on the planet

No. 2 The game is a 2.785D shooter and is set on one of the 8 Earth-like planets

No. 3 You fire and start the game with a letter as a weapon tool that shoots vector points as ammunition, when the ammunition is used up, the letter changes to the next one, each letter has a different number of vector points and therefore a different ammunition position, you have a complete alphabet as a weapon system at your disposal. No. 4 You control the two characters like in Metal Slug through the different levels and start to collect the gold along the way that the aliens have hidden.

No. 5 You switch the player back and forth to have the better weapon for the incoming enemies, you also get upgrades and receive additional vector point ammunition after successfully shooting down the aliens. No. 6 Try to eliminate these hordes of aliens with your letter weapon and its vector points within a certain time, for every alien shot down you get points + for every hit the aliens make on your body minus - points.

No. 7 You get a depot of points at the beginning and must not lose it and of course not let the enemy hit you, otherwise there will be - points that will be taken from your depot.

No. 8 If you have passed the first levels, which consist of different shapes such as square, circle, rectangle, triangle, cylinder, etc., then you can hope to be able to take on even more aliens

No. 9 The eliminated aliens leave behind gold pieces that you have to collect in order to charge your players with them in order to get them moving, otherwise they will remain standing and your opponents can shoot and eliminate you more easily

No. 10 Collect the gold pieces for your movement and eliminate the aliens to record points in time so as not to end the game prematurely

No. 11 You can also charge your players with real kilometers run and get them moving again when you get stuck

No. 12 Different alien races are waiting for you on each planet, which you must defeat, collect all the gold pieces and increase your time + depot

No. 13 Travel in the switch between the planets and eliminate all alien forms and finally use the gold pieces to save your spaceship, which only works with the gold pieces in the drive, to return to your planet

No. 338 Doctorslimeattack

No. 1 They try to attack each other with different types of slime, each of which has a different color, and ultimately to become completely slimy. This means that they walk through the open world with a vacuum cleaner-like device on their backs and look for other players to completely slime them.

No. 2 Try to find the right color of slime at the right moment and activate the Slimere-actor on your vacuum cleaner

No. 3 The players light up briefly with a certain color and they must therefore react quickly and select this from their slime reactor vacuum cleaner. Once they have done this, they can now slime the opponent

No. 4 You will only receive the required slime if you have collected enough slime in the open world with a kilometer counter step indicator from the real world, you can only find the slime if you make your character search in the open world, it only runs if you have reached enough kilometers in the real world

No. 5 If you have collected enough slime in different colors and charged your vacuum cleaner Slimereaktor, you can now go hunting like in fortnite and look for players who can cover you in slime

No. 6 For each player slimed in the correct color, you receive points + to use the time you have collected to cover kilometers in the real world in order to collect more slime and then slime the next player with it.

No. 7 You have to slime around 256 different colored players to challenge Doctor Slime Attack, because in his hand are other spectrum colors that you need for the next players in the next level in order to slime them up completely.

men

No. 8 You must steal the flag with the colors from Doctor Slime Attack and bring it back to your camp or headquarters, then insert it into the color machine to generate and unlock new, different colors for your vacuum cleaner slime reactor

No. 9 Start sliming and try to prove yourself in the new levels and cover all the enemies that are newly set up with the new color that you found in the open world based on your collected kilometers and integrated into your vacuum cleaner slime reactor

No. 339 Cantbetamed

No. 1 You must try to capture and tame wild animals that have escaped from the zoo

No. 2 You have to follow a letter radar in the open world where the animals are, which shows you the exact name and location of the animal

No. 3 First, you have to find letters in the open world and integrate them into the radar so that you can use the function

No. 4 The letters are placed in dangerous places, you must first pass the places and find them so that you can collect the letters

No. 5 Once you have located the danger spots and collected the letters, you can start hunting the animals with the radar

No. 6 Implement the letters in the radar and you will be shown vector points where the animals are located

No. 7 You have to collect running kilometers in the real world beforehand to get your character moving, so go for long walks and maybe even go running and collect lots of kilometers that you can then implement in the game

No. 8 Once you have found an animal with the letter radar, you must now make it weak and tired in order to be able to catch it better. This happens when you move in different directions with the collected speed from the real world that you have gained from jogging and walking.

No. 9 Try to tame the animal if you see the possibility in it, for this you have to imitate different directions that are shown on the smartphone display in the air, for example, left, right, left, up, down. Repeat the combination with the smartphone in the air, the smartphone registers the movements and the animal falls into a trance and becomes weak.

No. 10 In addition, they have to shout into the microphone, tones and sounds that are given to confuse the animal and then, when it becomes tired and weak, catch it with the lasso pull, to do this they point the mobile phone forward like a fishing rod and pull it back abruptly to place the lasso on the animal

No. 11 Once you have caught the animal with the lasso, you only have to bring it to the main headquarters to let it back into the zoo

No. 12 For catching the animals you get points, which you then have to use to buy a vehicle to transport the animal to the headquarters, first catch and tame some animals and then earn the vehicle to transport the animals

No. 13 Tame the animals faster and catch more animals than your opponent to win the game against him. The game also runs for a certain time, so be quick and agile enough to hunt and find the animals that have run away and tame them so that they can be let back into the zoo.

No. 349 Jumptharun

No. 1 You have to try to reach a certain number of kilometers by running the route generated by Google Maps in this app

No. 2 You are given a certain time in which you have to complete the route

No. 3 If you have completed the generated route and managed it within your given time, this will be transferred to the digital game

No. 4 In this Run And Go game, try to master this route digitally with your digital character

No. 5 The kilometers you have run and your speed in the real world are now transferred to the digital game. You now control the game with your self-created character and must now complete the route transferred from the real world, which is filled with obstacles.

No. 6 The route you have run in the real world is now digitized into a Run and Go game, you must now complete the route

No. 7 This time, dangers lurk on the digital track, such as obstacles such as hurdles, blockades, bombs, and other obstacles that prevent you from successfully completing the game and reaching your goal

No. 8 You also have to run over colored vector points on the digital track, which allow you to accelerate depending on the color

No. 9 Use this to run the route in the given time and to master it better No. 10 If you have mastered the route in the given time, you can now run another route in the real world and digitize and complete it

No. 11 Battle against other runners around the world and mark your successes on your Google Maps running map, either in the real or digital area

No. 12 For every route you complete in the real and digital realm, you receive hearts, which you must then collect in order to find and unlock more routes in your area

No. 13 Go global and become the superstar of this game as you travel to other countries and successfully complete their routes there

No. 350 Ibringmybag

No. 1 In this game you have to try to fill a bag that is currently empty with money, which happens when you try to break into the banks of this world

No. 2 Try to rob as many banks as possible with your bank robber, this is what happens when you prepare for it in your training camp

No. 3 Once you have completed your preparation, you must now try to break into a bank during the day or night and crack the safe

No. 4 If you have managed to eliminate the guards who are waiting for you on each floor and infiltrate the bank as a spy, you must first collect letters on the floors that are essential for the entrance to the safe. No. 5 Once you have arrived at the entrance to the safe, you must now place the letters on the floor in the correct order so that they are not caught by the light barrier. No. 6 Place letter after letter on the floor and walk through the light barrier, as the letters have vector points that light up when they land on them. These reflect the light in a different direction and you can now move on to the safe.

No. 7 If you have made it to the safe, you must now complete a memory puzzle to open the safe

No. 8 If you have managed it, you can now fill your bag with money and try to escape through the roof by tandem jump. No. 9 Ultimately, you have to do this within a set time, as police reinforcements could arrive at any time.

No. 10 Collect the correct letters to deactivate the light barrier, turn off the guards and solve the memory puzzle for the safe. No. 11 If you have escaped with your tandem jump, you must now use your bike to deliver the stolen money like a newspaper boy and throw it into the mailboxes or windows of people in need in your neighborhood. No. 12 Be careful and extremely alert, the police are waiting for you on every street corner. No. 13 The delivery is also timed, if you have distributed the stolen money and your bag is empty, then in the next level you can try to break into a bank in another country and distribute the money to people in need.

No. 351 Ziditron

No. 1 You must try to control a spaceship on 2.785d perspective with a Muppet, this Muppet shows his head out of the spaceship if he sees enemies

No. 2 Try to catch the enemies that are on their way to destroy you, like in R Type, with the mouth of the Muppet

No. 3 The more enemies they catch with their mouths, the bigger their skull becomes and they can therefore see the enemies better from further away

No. 4 If you have caught some enemies, you can now shoot letters from the mouth at the approaching enemies

No. 5 Each letter contains vector points that are colored. Aim the letters so that the vector point reaches the colored enemy with the colored point. The letters rotate variably around their own axis. Pay attention to the correct shooting angle.

No. 6 If you have shot down an enemy after you have stuffed yourself full of enemies, you will be given points in time to continue to control the spaceship with the Muppet in the level. No. 7 Try to free all the Muppets by sucking up all the enemies or firing at them with your letters and finally facing the end boss level enemy. No. 8 To get the spaceship moving, you must have collected enough kilometers on your pedometer in the real world. You then transfer these digitally to your spaceship in order to control and move it further in the galaxy. No. 9 Eliminate the end boss level enemies and free the Muppets. Use the freed Muppet to switch the control figure of the spaceship and receive new special skills to keep your opponents in check

No. 10 If you have enough points by sucking up and shooting down enemies, you can convert them into digital kilometers if you are too lazy to run kilometers in the real world. No. 11 In 2 multiplayer mode you control 2 spaceships, with 2 Muppets and their big heads, each selected and freed Muppet has special abilities that must be taken into account for the individual level.

No. 12 As in similar R-Type game style, in this 2,785D shooter you try to destroy enemies and opponents to collect points for controlling your spaceship

No. 13 Swap your Muppets with other players online in real time to overcome the difficulties of the upcoming levels, also collect letters with the spaceship and complete them in your book to explore the story of the entire game

No. 2 To get the shark moving you have to eat the enemies first to charge their movement bar

No. 3 You have 3 attempts at the beginning to reach the enemies in a dive and eat them

No. 4 For each enemy on the ground you eat, you get a 5 second time bonus, during which you can control your flying shark in the air and bring it into position

No. 5 Once you have it in position, all you have to do is dive down to the ground of the opponents to finally catch them on the ground and eat them

No. 6 You also have to collect letters, for each enemy you capture on the ground you will receive one alphabet letter as a gift

No. 7 Complete the word sequence that is being searched for on the scoreboard with the captured letters that the opponents spit out after successfully eating them

No. 8 If you have collected the word "Sharkanido" and destroyed the opponents one by one, you will receive points to buy your flight kilometers, which you need to be able to move in the air and continue playing the game.

No. 9 The enemies on the ground vary, sometimes they are big or small, fast or slow, so they plan their position from the air accordingly and make their dive on them, according to their feeling

No. 10 You get a new shark if you fail to hit the opponent and then crash completely, you always have 3 attempts or 3 lives available at the beginning

No. 11 In multiplayer mode you can move in the air with up to 3 sharks at the same time, one shark per player, one player per shark

No. 12 Be careful and cautious before you dive down, if you miss the opponent you will hit the ground and lose a shark life, if you grab an opponent from the ground again you will get time to float back up in the air

13. Catch and eat all enemies in the level to move on to the next level. Landscapes from the real world, as well as cities and regions from nature serve as the background in this 2,785D shooter

No. 354 Ice Spritzer

No.1 You invent your own drink using an app. You drag and drop fruits from all over the world into a digital glass. You select the country using the map and from there you drag and drop your fruits into your digital glass using your finger switch and try to mix them into a new type of drink. You also choose your mineral water from the various companies on offer, which are also displayed country-specifically.

Exchange your mix idea with other users of the app and configure the users' experiences from their mix to fit yours. Use the app to invent your own label and bottle design, which can be individually designed. Give your invented drink a name from the library or ask users for naming tips. Order your configured drink to your home and look forward to the taste that you have mixed together from various places in the world. The Ice Spritzer app has an original taste that has developed from the following things: in this example, we are taking cherries from Japan + mango from Congo + mineral water from the Justus Quell Mountains in Antarctica. With this, we have put together and mixed an example drink called the Ice Spritzer app for you. Look forward to your individual delivery and announce your drink on social media networks and wait for feedback from users who have bought this drink from your shop that was generated for you via the app.

No. 355 Gardenali

No. 1 You control a character named Ali, who has to plant flowers and seeds in various gardens

No. 2 His task is to secretly plant these plants in the gardens of his neighbors, preferably at night, where he can start the planting unnoticed

No. 3 in Metal Gear Solid style, he sneaks into the gardens of the neighborhood and tries to remove the plants that are there, basically stealing them and planting new ones

No. 4 Armed with his flashlight and his garden utensils, he tries to steal the plant species that are given to him and plant new ones in the same place with his own plants

No. 5 For each plant stolen, he gets points in time for the current game, Garden Ali is moved with the real kilometers they run in the real world, which are then digitally transferred to the game

No. 6 Try to steal the required plant species in your neighborhood within the given time and bring them into your garden house

No. 7 Watch out for your neighbors, they might see you and then follow you if they are spotted

No. 8 If you have stolen some plant species from the neighborhood and brought them to your garden house, you can now offer them for sale to other players in the game in an online store

No. 9 For each stolen plant sold, you receive points that you can use to purchase other plant species from other online stores of the other player

No. 10 Get these other plant species and plant them in the neighborhood gardens on the positions that have become vacant

No. 11 You get a plus point if the neighbors are happy and wonder why their garden looks different than before

No. 12 Be on guard against the neighbors and the police and cause mischief as Garden Ali in the neighborhood

No. 13 The game level is considered won when you have replanted a complete street from Google Maps that was generated for you. If you do not manage to do it in the given time, the game is considered lost. With the plus points you receive, you can buy new garden utensils in the shop and then add them to the gardens in the neighborhood.

No. 6 Try to collect the most chillys during this time and reach the top speed on the track

No. 7 You race against the other players in time mode and can see the spirit, i.e. the drivers transparently, how fast they had completed the track before

No. 8 For each Chilly item collected, you get points, which can and must then be handed over to Google for a new route to be generated in order to provide a new route for Sue

No. 9 Finally, they drive the tracks and try to achieve the best time, they also have to watch out for blockages and obstacles on the track and prevent themselves from steering against them

No. 10 Become the Chilly Master Quick Race Interceptor and, as the best time trial driver in the region, you will always receive a new Chilly Con Carne pack created for you to cook yourself as a gift delivered to your home

No. 377 Onthemgo

No. 1 You have to try to control a character who is constantly picking up things that are thrown at him by the program

No. 2 These are various products from the food markets in your area and from your region. No. 3 You can walk either left or right with him to collect the things on the way.

No. 4 The aim is to collect the required products that are shown on the scoreboard, the other products that are on the way, you have to skip, if you collect the wrong item, there are time deductions, the game runs for a certain time

No. 5 They carry a large sack with them in which they have to put the collected products

No. 6 Try to fill the bag completely until it can no longer hold any products

No. 7 The game is moved based on the kilometers collected in the real world, which they have run in real life, and thus the player is charged with this. No. 8 Once you have filled the sack, you must now throw it onto the display and the collected products will appear on your display, which you must destroy by touching like in fruit ninja in order to receive points for them.

No. 9 You have to reach a certain number of points in a certain time in order to then collect these points in order to integrate them into a QR code that you can redeem at your local grocery store to get a discount on an individual product that is actually in the store

No. 10 On the way to the store, you collect kilometers for your player to get him moving again so that you can fill the bag again

No. 11 This way they stay on the move and through the game they get the opportunity to get their products from the shop at cheaper and discounted prices

No. 378 Mutefirelove

No. 1 You try to catch large, medium or small hearts with a cannon, these hearts flutter through the display when you have to shake the smartphone at the start of the game. No. 2 Try to catch the hearts with the cannon and the catch net afterwards and drag

them into a love chest using the finger switch drag and drop system

No. 3 If you have caught a heart, it will be frozen on the display, then drag the heart into the love chest as quickly as possible by touching it

No. 4 After you put the heart in the chest, a letter appears where the heart was

No. 5 You now have to catch more hearts in the formats, large, small, medium and do the love chest or so-called drag, for this you also get points that charge your time for the game

No. 6 If you have managed to catch several hearts and dropped them, you must now pull the letters that appear behind them together to form a given word, which is required on the scoreboard

No. 7 The word Love is searched for example, make sure that you see and have the correct letters and that you pull the correct letters together in the correct order

No. 8 If you have touched the word Love together, you get points for it, catch hearts again to free up letters and then touch them together to form a new required word

No. 9 Finally, you have to complete the sentence that is required, in this case Love on the Beach

No. 10 The game is about scoring more points than your opponent who competes against you in the split screen

No. 11 Catch the hearts and collect the important points in time and pull the letters together to form the correct sentence to score points

No. 12 Try hard and be faster than your opponent and do not waste the time you have gained

No. 13 The backgrounds of the levels consist of different places in the world and also bring nasty restrictions, such as bombs and blockades, as well as obstacles that prevent you from catching the hearts and bringing them into the love chest.

Once your love chest is charged, you can now quickly shake your smartphone to ensure that your collected hearts now appear individually on the opponent's display. The more hearts you collect, the harder it is for the opponent to keep track of the display. He cannot catch all the hearts and complete the sentences that are required, so constantly torpedo him out of your love chest with your hearts to make his display confusing.

No. 379 Afropimp

No. 380 Takealookaround

No. 1 You must try to achieve a view in this game where you have all enemies in sight in order to be able to hit them more accurately

No. 2 There are masses of enemies running towards them from different sides and trying to destroy them

No. 3 You and your player must set up so-called letters as shields and use them as a blockade to keep the enemy troops at a distance and prevent them from hitting you

No. 4 You have a complete alphabet of letters, from these you build a blockade and integrate vector points into the letters, which then serve as target lenses

No. 5 Once you have set up your position and placed the letters in front of the enemy troops and positioned the blockades, you must now wait for the enemy to attack

No. 6 Through the target lenses, i.e. the vector points of the letters, you have the opportunity to shoot at your opponents from there and hit them and thus eliminate them

No. 7 After successfully destroying the opponent, there is a multiplication gate at every blockade where you can double and triple your character to get more characters for the targeting objectives, which can then be used from multiple sides. No. 8 Meet your opponents and get the opportunity to split your character and

multiply it and look around your built positions and set your split characters to the right positions to hit the opponents from other sides through the vector point targeting objectives and thus ultimately eliminate them.

No. 9 For each area hit you get points in time that are necessary to play the game, the time always runs down negatively, so you have to collect plus points in time for each enemy hit and charge the timer with them

No. 10 Do not let the enemies completely destroy your blockade and run you into the headquarters

No. 11 This self and defense game is played to win when you hit and destroy all approaching troops through their blockades and their built-in targeting lenses aka vector points

No. 12 In the next level, build your letter obstacles individually again and try to stop the oncoming storm on your headquarters and not lose sight of the time for eliminating the opponents and enemy troops

No. 13 To set your character in motion you must have walked kilometers in the real world and transferred this to the digital pedometer of the character in the game. If you run out of steps, you must now walk new kilometers again so that your split characters remain constantly moving and thus constantly change position from the obstacles that you have set up in order to individually keep away the enemies that are coming at them from all sides.

No. 381 GoodcopBadcop

No. 1 You control the first character Good Cop and the second character Bad Cop in the switch to destroy enemy troops in the form of the game Metal Slugs

No. 2 For each enemy you destroy you receive time points, these must be constantly recharged so that your general time does not run out

No. 3 If the general time runs down and ends, the game is lost

No. 4 For every normal enemy you kill you get 3 seconds + charge, you start the game with 60 seconds, for every enemy you don't hit you get 3 seconds - deductions No. 5 There are also enemies that give you different second numbers, sometimes 6, sometimes 9, sometimes 6 seconds + or that are charged or reduced at or from their time account - ,

No. 6 So be in the best Metal Slug manner and aim precisely at the positive opponents with the Good Cop and at the negative ones with the Bad Cop

No. 7 If you hit the positive opponent with the bad cop, you will lose time. If you hit the negative opponent with the good cop, you will lose time. You must switch with the characters and use the good cop to eliminate the positive opponents and the bad cop to eliminate the negative opponents in the correct color order in order to receive time bonus points. No. 8 Run through the various levels in 2,785D graphics and try to beat the time limit. You can then go to the upgrade shop to get new weapons and technical equipment for passing the level in the improved time. No. 9 You can control the characters in multiplayer or play alone in single player mode.

No. 10 If you have passed the generated level, which is generated by Google Maps, you can start a new adventure. Google Maps generates the levels individually and spontaneously. Sometimes the background is simple, sometimes boring, sometimes beautiful, sometimes crazy. No. 11 Time is running out. You have to fire at the right enemies in the switch and destroy many of them in order to get a positive balance for your timer. You take this timer with you to the other levels and continue playing with it. No. 12 Try to move quickly and avoid obstacles and blockades. Destroy the enemy enemies in the time specified by the level in order to be able to move to the next level. No. 13 If you beat the specified time, you get points as mentioned above, which you can then redeem for weapons in the upgrade shop and at the checkpoint.

No. 2 You have to infiltrate the hoodz gangster family as a spy and find out what kind of business is going on in your neighborhood

No. 3 To do this, you must first get money by passing the initiation ritual of the gangster family hoodz. You must break into shops and steal a certain amount of money so that you can be accepted into the gangster family Hoodz.

No. 4 You also have to collect letters in the district for the Gang Hoodz, which are used to bribe the police. The letters ensure that they cannot be caught under the protection of the police. No. 5 You can find the letters in the most dangerous places in the district, namely in the regions and areas of the other gangs in the district. You have to break in there and steal the letters in order to get protection from the police. No. 6 The more letters you steal and rob, the more time points you get for it, so you have to constantly steal and complete the tasks in the given time.

No. 7 If you have stolen enough letters and money in the quarters, you must then hand them over to the Hoodz family

No. 8 You will receive a task from the Hoodz that you must complete, if you do not do this, you will no longer be protected by the corrupt police who will protect you from going to prison

No. 9 If you have completed the first requirements and completed the quests and tasks of the Hoodz perfectly, you can now call yourself a member of the Hoodz, you have now officially become a Hoodz member, but you are now integrated into the family gang as an independent spy and try to find out what the gang is planning in the future

No. 10 Complete the following tasks of the Hoodz and become a corrupt member of the Hoodz, which gradually works its way up the gang level No. 11 Ultimately, you have to infiltrate the gang and obtain secret information about them, do this carefully and don't get caught, you have a special gift for this, namely the transformation through the individual outfits that you wear on your missions for the Hoodz No. 12 For each new mission, you wear individual clothing and certain weapon systems that the Hoodz provide you with No. 13 Climb up the ladder of corruption and become the boss of this gang and ultimately eliminate the other gangz in your district by stealing their things and sending them to prison with the corrupt police No. 14 When you are at the top of the Hoodz and your district belongs to you completely and you have sole power there, then travel with your troops out into the wide world to other districts to take control of the world No. 15 Conquer the cities of the world with the Hoodz and become the ultimate gangster boss who then has control over all the trade and thus has the upper hand and can even build cities No. 16 Finally, when you gain the upper hand over the capital cities of the world and found a city of your own, you can now hire new Hoodz, new members who know the true story of you and will not betray you on oath of honor No. 17 Train them and disguise them as trained police officers in order to push the corrupt police out of the market

No. 18 Now work with your secret police and slowly take apart your empire by waging war against your Hoodz, since they are the boss they must not attract attention and must be constantly in camouflage

No. 19 End the power of the self-created Hoodz empire by showing your gratitude at the end of the game and exposing all the Hoodz gang members by letting them fall into the trap and arresting them with your self-founded secret police No. 20 Become the top informant of the secret police and expose the Hoodz by providing the secret police

with the data they need and thus initiate the end of the Hoodz No. 21 End all the corruption in the world and become the best boss secret infiltrator of all time

No. 385 Karma

No. 1 You control a character called Karma, he tries to direct an effect and an action on the people who pour out bad karma

No. 2 Using a karma radar, they search for the people in the level who are pouring out bad karma

No. 3 You must react quickly and find these people and, with your good conscience, transfer your good karma to them in order to transform them back into healthy people

No. 4 If you do not manage to convert the people with bad karma with your good karma, they will turn into so-called monsters who try to eat other unsuspecting people

No. 5 First, search for and find letters in the level, which you can enter in your Karma Book and develop good thoughts from them, in order to then use them to convert the bad people

No. 6 Without the letters found, you cannot complete the Karma Book and develop new effects that you can then transfer to the people who currently have bad karma

No. 7 If you have collected enough letters and implemented karma sentences in your book, go hunting with the help of your radar and look for the people who have bad karma

No. 8 For each person you convert who has bad karma, you receive a heart and plus points No. 9 You have to collect these to keep the game alive, because the monsters keep eating new people in the same period of time, and their heart life indicator scale gradually sinks into the minus range

No. 10 You must also try to destroy the transformed monsters with the collected hearts you received for the re-transformation of the people

No. 11 Find the monsters on the map and fire your heart cannon or weapon at the monsters to destroy them and remove them from the game once and for all

No. 12 If you have transformed enough people back with your self-developed Karma Book and eliminated the monsters on the map, you jump to the next level, which is generated by Google Maps

No. 13 Try to finish your Karma book and convert the places and people shown on the map by Google Maps with your Karma thoughts and effects, free the world from bad Karma and establish a civilization based on its thoughts, then go to war with your Karma army against the individual monsters to finally eliminate them from the world.

No. 2 Go in search of those special plants and flowers that you can find using the radar in the open world

No. 3 Once you have found and collected some plants and flowers, you must now go back to your garden and plant them in the fields

No. 4 To generate rain for the growth of plants and flowers, you must have run enough kilometers in the real world during the week to get the rain to start

No. 5 Once you have finished the week and planted your plants and flowers in the garden and filled up your rain scale, start the event and let it rain at midnight

No. 6 These special plants and flowers only grow in the midnight and, when they thrive and receive rainwater, pour out hearts

No. 7 Collect these hearts and exchange them for other seeds in the open world in order to continue planting new plants and flowers in your garden after the harvest has not yet been made

No. 8 In the harvest time at midnight during the full moon, the plants and flowers spray and give them letters in an order that must be followed to interpret a sentence that they write down and then send it by letter to their beloved woman to win her back

No. 9 The flowers and plants give them love sentences, which they have to collect according to the correct order of the letters

No. 10 Be careful at night that Deviljo does not break into your garden to steal your plants

No. 11 Build obstacles and blockades around your garden to protect the plants and flowers from Deviljo, who wants to steal them and plant them in his garden to send the love story to his dream woman first

No. 12 You can also try to steal Deviljo's plants and flowers while he is trying to break into your house, in order to filter out his love phrases from the contents of the plants and flowers

No. 13 So be constantly on the move and try to protect your garden with blockages and obstacles from being a thief in turn to expand your garden with the stolen species of plants and flowers from Deviljo

No. 14 Only on certain real days, when the full moon is shining outside, you may start the collected rain that you had generated through Kilometers on Collection

No. 15 The special plants and flowers only thrive at midnight and during real full moons, and after the rain they have generated

No. 16 Explore the open world in time and search for and find new seeds to integrate new plants and flower species into your garden

No. 17 Complete the harvest and the resulting love sentences for your love story to your dearest dream woman Taylor Alison

No. 18 After collecting the letters from the plants and flowers you have grown in your garden, send the appropriate love sentences to your dream woman and conquer her heart in the future with this creative game

No. 2 You have to build an army of angels with the character, this happens when you try to convince the good souls of people in the free world to want to form an army with them

No. 3 You have to look for a specific radar in the respective countries in order to use the radar to locate the souls who are convinced to form this army with them

No. 4 Your opponent is deviljos, who hosts an army of evil souls and has various types of enemies

No. 5 You must therefore find the good souls using the radar and create their bodies, in which the souls are to take possession, yourself in a design program

No. 6 In the main headquarters, the souls they have found in the world are implemented into their individual bodies

No. 7 Find enough good souls in the world and develop your army of angels with them

No. 8 Once you have implemented the good souls into the bodies you have designed, you must now send your completed angels to training camps to teach them special skills

No. 9 If your angels are trained and have learned enough skills, the search for deviljo's army of undead who move with evil souls begins

No. 10 As in the game Commandos, you control a group of angels through the different regions and districts of this open world game

No. 11 Find the individual teams of the army of deviljo and free them from their evil souls by taking up the fight with them

No. 12 Once you have liberated the individual teams and headquarters, take over the position there and send new troops from your headquarters into the conquered areas

No. 13 At the end of the game, free your wife Rabbit and lead her home, kill Deviljo's army and fight him as the final boss with your angel hero Lavender Haze

No. 388 Nookie

No. 1 In this game you control a character named Noo-kie, his task and goal is to find the right solution to escape from the Muppies' captivity

No. 2 The Muppies are in a huge castle and are holding Nookie captive, the castle is so huge that you could say it is so big and takes on the dimensions of a capital city

No. 3 You must first try to escape from the prison with nookie and then gradually eliminate the enemy troops that appear on your way

No. 4 You follow the trail of letters and can thus be led onto the right path by leaving the castle at the end, the escape from the individual areas takes place through episodes in which you also have to complete quests and tasks

No. 5 For each enemy you kill, you get points that you need for the general timer, each enemy you destroy gives you levels plus points depending on the difficulty

No. 6 The game is played very quickly and you always have to be in a fight to collect the points in time, because the clock is ticking against you and is running down, it must not run out, otherwise you will end up in prison again

No. 7 So stay on the right path, which is indicated by the letters to always be close to enemy troops

No. 8 In this hack and slack game you have to react quickly and fight your way quickly and brutally and collect the time points left by the destroyed enemies

No. 9 If you have managed to clear the district and the place in the castle of the enemy troops and have followed the path of the letters that ultimately shows you where the next enemies are, then you can almost grasp the end of the castle

No. 10 You must also overcome and destroy the storming masses that come towards you at the end of the castle, otherwise you will end up in prison again and have to start everything over again

No. 11 On the way to the final goal and during the game, collect the enemies' weapons and use them to slaughter the new enemies

No. 12 Seihen She tries to move quickly from place to place and avoid obstacles and blockades, as these eat up time that she needs to kill the enemies

No. 13 When they reach the end of the castle, a gift awaits them. They must now exchange the collected points in time for an army in order to finally destroy the castle completely with artillery.

No. 389 MyGenerationz

No. 1 You control a character named Fred through the various eras of this world in an ego and 3rd person perspective

No. 2 You have to find enough points in time in each epoch and collect them so that you can be beamed into another one through the time machine hidden in the level

No. 3 You must try to collect letters in the eras in which you move back and forth, these are very important because you must complete your generation book with these letters in order to decipher the secrets of this world

No. 4 You start in an era individually selected by the game and try to find the letters there and of course the times and its time machine

No. 5 You have to complete various quests and tasks and eliminate extraordinary enemies that stand in your way, these are set up differently in each era and look different accordingly

No. 6 Try to fill your book Generation with letters to unlock the secrets of this world

No. 7 Travel from era to era and find the important letters that will be integrated into the book and thus reveal a new secret

No. 8 If you have uncovered and deciphered some secrets, you will receive points and can use them to open your map of the respective era and get to other places that were not previously found on it

No. 9 You still have to use the map to find important keys that you need for the time machine in order to be able to open it in the hidden places

No. 10 Based on the Generation Book, you will be given new tasks to complete in the era through the deciphered secrets

No. 11 Complete the tasks and quests and find the time machine that can send you to another era of time, collect enough points in time and the key to put the time machine into operation

No. 12 If you have successfully found the secret of the era and integrated it into your book, you can continue on to the next exciting journey

No. 13 In every era enemies are waiting for you, which you have to defeat with the weapons you have collected. These enemies protect the letters and are not easy to destroy. When searching for the letters, pay attention to your arsenal of weapons and their ammunition, which are different in every era.

No. 14 Eliminate these hordes of enemies, grab and find the important letters for your generation book, the key and the times for your found time machine and travel to another one to complete the respective quests and tasks there

No. 15 If you have uncovered all the secrets and completed the Generation Book and defeated all the enemies on Earth that stood in your way, you can now, if you have done everything, travel to a new planet and try to uncover the secrets there and start a new adventure.

No. 390 BreakStuff

No. 1 They must try to destroy things they do not know what they are

No. 2 You must first find out what kind of things they are and make them recognizable

No. 3 The game is based on vector points, with which you try to throw them at the things that appear on the display

No. 4 Every thing has an exact color recognition and must be hit with the same vector point color to make itself visible

No. 5 Try to make the things flying around on your display visible with your colored vector points by trying to hit them with the right color

No. 6 If you have hit some things with the right colored vector points and made them visible, you can now destroy these things, be it blockages or obstacles, in order to receive certain points

No. 7 The visible things could also be certain icons, if this is the case, you have to collect these icons in the correct order using a display board by hand touch in order to get certain points in time, the game runs for a certain time, per icon there are 3+ seconds for your general time clock, these are credited to you

No. 8 If you miss the order by one icon, there will be a 1-second deduction and this will be deducted from your time account

No. 9 You start the game at 60+ seconds, identify your things first and then proceed with the correct order to collect + seconds and to positively charge your overall time clock

No. 10 Identification of things is the main feature of the game, because without the correct recognition, you can no longer collect points, so identify the blocks and obstacles in this game that prevent you from finding the right objects, in this case the icons that are being searched for

No. 11 Destroy the obstacles and blockages when you have made them visible and touch the correct and wanted icons in the correct order to generate points in plus for your time clock

No. 12 Be careful and cautious when making things visible, it could be that you are using the wrong colored vector points and it could lead to break stuff, in this case the entire display will be blocked with obstacles and blockages, you then have to completely clear this in order to be able to continue playing the game, you generally only have 60 seconds to do this No. 13 Collect as many points in time as you can and charge your timer with them, you will need these in the subsequent levels, which then have a different level of difficulty than before

No. 391 *KeeponRollin*

No. 1 The game is about a magical fun racer that can be controlled by voice commands, which means that at certain points where the Rollin Icons are on the track, you have to say Rollin Baby via microphone while you collect the Speed Icon, which looks like a cat in terms of design, in order to get a Deja Vu effect and a Super Speed. No. 2 The fun racer is played with soapboxes that you have to design yourself before the game, for this you have about 3 hours time, you have the opportunity to choose the elements for your soapbox.

to design it yourself and then implement it in your soapbox

No. 3 You must try to build a soapbox car that is visually and technically unique to you, which can be refined and optimized over time by winning points in the upgrade shop.

No. 4 Once you have finished designing the soapbox car, the game starts from a route suggested by Google Maps, which is recommended to you by real drivers

No. 5 You can now compete against about 13 other opponents and complete the course. On the course there are so-called icons, as mentioned above, which can be picked up at the right time by saying Roll-in baby to get super speed.

No. 6 Try to be faster than your opponents and win the first tracks and collect points for each victory, which you can use to exchange the points you have won for specific and refined weapon systems for your soapboxes in the upgrade shop

No. 7 Equipped and motivated, they now enter the race on the new and individual routes generated by Google Maps, which come from different regions and perhaps from another country

No. 8 The aim is to win and place your badges on the Google Maps track world, be it as a win or best time lap or total time for this track

No. 9 Conquer the land areas in your region and mark the region with your own color in addition to your badges, which will be displayed as a percentage for the victories won there

No. 10 The goal is to conquer an entire region and win the land for you, with your badges for the respective routes, with your ghost records that you have left there as opponents for the time attack per route for your opponents, who could come from all over the world

No. 11 You must try to become the best in your circle and in your region so that you have collected enough kilometers to be able to travel to other places in the world, because the kilometers you have won can be exchanged for flight miles

No. 12 Reach other countries and choose a new journey to new regions with your own soapbox and put the records of the city or village specified there on your task list. No. 13 Break the ghost records of the opponents there and conquer the districts for districts with your pimped-up soapbox, try to record and say the power speed icons using the microphone in order to achieve the best speed on the respective route.

No. 3 Use the shoulder buttons to skip the blockages and obstacles as well as the foxes that are on the track

No. 4 Also collect letters on the track while you are running, these are used to activate the radar to make other sheep on the track visible

No. 5 You have to charge the radar with the letters to activate it, the radar then shows you in which direction and position the sheep are, you have to collect these during the run to get points in time in order to charge the time clock positively, thus making the game longer

No. 6 If you run out of time, the game is lost and you have to start the course again from the beginning by running

No. 7 They also have to run the routes generated by Google Maps in a certain time and be faster than their online opponent, who runs alongside them as a ghost

No. 8 Conquer the districts of the routes from Google Maps and make a mark, as a sheep your badge on this area to make it clear that you hold the distance record there

No. 9 The Google Maps map is given a certain color after conquering the times on the different routes, they try to color the districts all with their color and take over the upper hand in the region

No. 10 For example, if you have positioned a district with your best times, you can invite users from the Internet to try to break this record. If the invited opponent does not manage to beat your time, you will have the opportunity to run a course in his district without being challenged. If you manage to break his record, you will receive the course as a gift and save it in your course library and in your game archive.

No. 11 Challenge and invite opponents from other countries to show them on your tracks that you are the record holder and that this record cannot be broken

No. 12 If an opponent breaks your time record in your district on your routes, your district is narrowed again by the opponent's color and the opponent now rules over this route

No. 13 Try to color the entire Google Maps map in your color and thus gain control over the routes. If you have successfully completed all routes with your best times, then wait for the individually generated opponents from the Internet who will try to beat your best times and take control of their districts.

No. 395 N2gethernow

No. 1 You must try to control 2 characters named N and 2two in a 3rd person perspective, your task includes founding a company that specializes in nailing the real criminals of the economy to the cross

No. 2 Try to work your way up with these characters who come from the Bronx and create a financial basis for the company, they have to earn money in real jobs, through hard work, in order to start the company

No. 3 You have to accumulate a certain amount of money in a certain time and buy the company building and the land, your headquarters No. 4 Once you have done that, the game switches to a construction simulation, you now hire workers who you train beforehand and let them do the work No. 5 The aim is to build several buildings and achieve an infrastructure in which you can do more business

No. 6 If you have created the basis for your infrastructure and made a name for yourself in the Bronx, you can now trade with other companies. They will sell you their products that you bought more cheaply, for example at a more expensive price, and thereby make a big profit. No. 7 Build a headquarters out of the company and try to develop your own products on the market, which you can then position on the market and sell to customers at a good price.

No. 8 If you have expanded and the business is turning into a profit, try to make a name for yourself in other districts of the city

No. 9 If you have managed to buy buildings in the other districts, you can now rent them out to accumulate more money

No. 10 Rise to the league of the super rich and use your accumulated money to improve your infrastructure and establish a monopoly position on the market

No. 11 Ultimately, the goal is to eliminate all other competitors from the economy and to call yourself the ruler of your self-improved city

No. 12 If you have managed to take over the city, the game jumps into the second phase, because other city rulers either want to trade with you or force you into recession

No. 13 Make trade agreements with friends in your area and join forces against other powerful cities in this world to destroy the corruption that rules this world

No. 396 MywayontheHighway

No. 1 You have to, quite simply in this car racing racer, build your track before it collapses into the future and thus complete it, which means that if you have managed to reach the end of the track within the given time, the game will stop in slow motion and you can continue building the track, i.e. the highway, at that point, you put track sections together in the form of a puzzle and thus change the track design for the rest of the journey.

No. 2 Try to reach the specified distance kilometers by continuing to complete the route in the slow motion function, be it building the highway straight or with curves, or with intersections, that is up to you

No. 3 If you have completed the specified distance kilometers, the level is considered passed

No. 4 As an additional function, you collect elementary letters on the track, which give you points after correctly recording the sequence, which you can then use neutrally to downgrade your vehicle in pause mode

No. 5 So race into the next incomplete

stretches and build the goal with the required kilometers in slow motion mode further into the future

No. 6 If you have built the entire route section and completed the journey in the specified time and the required kilometers, you can now declare this route as successful and make it available to other users on the Internet

No. 7 Travel to different places in the world and build the ultimate highways that can then be driven on by your friends from the Internet

No. 8 Set records along the route and make your Ghost available to your friends, which should serve as a task and challenge for Internet users

No. 9 In the Upgrade Shop you can exchange the letters you have collected for improved capabilities of your vehicle to optimize it for the highway

No. 10 For example, if you have travelled to all the places in the world and have been able to build your own individual routes while driving, you can now exchange these for other routes from users on the Internet to get a new driving experience

No. 11 Collect the right colored vector points on the highway to gain extra speed while driving, as time is constantly running against you. If time runs out, the game is lost and you have to start the race again from the beginning.

No. 12 Try to collect the vector points in the correct color order to reach a super speed, to get to the end of the track, and to get into slow motion mode to be able to build the track sections for the rest of the course

No. 13 If you have renewed the whole world with more highways, you can now drive and test them with special cars or vehicles

No. 397 Vigilante Shit

No. 1 In this part of Vigilante, as known from the old car racing game, you have to try to destroy opposing cars, but here you have to collect special people who use the weapons arsenal on the cars

No. 2 To find the people, they must first have collected enough kilometers in the level to make them visible on the radar

No. 3 Collect various weapons along the way and look for the right person on the radar who can operate the arsenal

No. 4 In order to finally collect the person, you must find his name using the hidden letters that are in the level and put the letters together to form his name, that is, Tyler must be collected first with the initial letter T, then the others follow, which must be collected in the correct order

No. 5 If you have found and picked up the name in the level, drive to the person who is provided on the radar

No. 6 Activate the person from his place where he is and collect him on the car

No. 7 Once you have activated him and the person on the car, you can now challenge the other enemy vehicles in the game together with him. You also have to pick up bullshit with your car trailer in order to shoot the enemy car so that it can no longer drive, and you can destroy it with your arsenal of weapons in conjunction with the person.

No. 8 For each wrecked vehicle you get points in time to be able to play the game at all, because time is running against you, try to smear as many vehicles with shit so that they are no longer drivable

No. 9 Then when these vehicles can no longer drive, you can destroy them with your found weapons to get points

No. 10 If you have collected enough kilometers and points in time and cleared the playing area of vehicles, you can jump to the next level and from there take apart new enemy cars or vehicles

No. 11 You get points for each destroyed vehicle, which you can use in pause mode to upgrade your own car's abilities, improve your car to eliminate the more difficult opponents in the future

No. 12 Also try to find aliens and take them on your empty trailer and deliver them to a headquarters, you get extra points for this and thus fulfill the goal of the level, to shoot these aliens out of the headquarters into the atmosphere

No. 13 The levels are provided by Google Maps original and resemble the real cities of this world and can be driven and played like this, slaughter the fake vigilante group at the end of the game or level and turn them into bullshit, for the rating you need to deactivate other vehicles from the driving status

No. 398 Snowonthebeach

No. 1 You have to try to control a character called Snow (polar bear) in an open world, your task is to freeze the glowing enemies that try to melt the snow of this open world and turn them into blocks of ice

No. 2 With the help of their radar, they can detect the glowing enemies in their area, they just have to collect snow beforehand, process it with their snow cannon and locate the enemies and shoot them with black ice

No. 3 For each frozen enemy you receive a heart, which is counted as a point. Collect enough hearts to receive a letter, which you implement into your Snow Book and integrate into the open spaces of the sentence.

No. 4 The letters are used to decipher a love story that is currently incomplete, the book has several passages and paragraphs in which there are incomplete sentence structures, with the integration into the open teaching positions, you can complete the incomplete sentences

No. 5 Use the radar to find the enemy troops in the snow level and try to freeze them in quick succession in a hack and slack process and turn them into ice blocks

No. 6 There is a measuring scale that shows you how much snow is left in the level. You have to make sure that it does not cross a border line and that the snow in the level is reduced, which the enemy glowing troops try to transport away or make melt.

No. 7 You must therefore quickly capture these troops and turn them into ice blocks with your manufactured lightning ice and bring them to your headquarters and transport them into an ice chamber

No. 8 The goal is to decipher her love book and capture all glowing enemy troops and turn them into blocks of ice before they destroy the snow

No. 9 If you freeze many enemies in a row, this is counted as a combo and it starts to snow in the level, the falling snow recharges the snow scale, but beware of new nasty enemies who try to remove the snow and take it to another place, this place is a beach where the sun shines and melts the snow

No. 10 As mentioned, each frozen enemy receives a heart. Collect small, medium or large hearts from each enemy to exchange them for other letters that are needed to decrypt the love book.

No. 11 The goal is to clear the snow level of the glowing enemies, turn them into ice blocks, collect hearts, insert the letters into the love book and bring the enemies to the headquarters and transport them to the ice chamber, where they are then transformed into new snow by the snow machine.

No. 12 Seihen She tries to move quickly and find the enemy troops quickly, they carry and transport the snow to their sunny beach to cool off

No. 13 The game is lost when all the snow in the open world has been removed and melted by the enemy troops. You win the game when you decipher the love book for your polar bear dream woman and have turned all the enemy troops into snow and have reached it within the given time.

No.399 Questionmich

No. 1 In this app you are required to think of 13 ultimate questions to ask your idol from the internet

No. 2 Try to develop questions that are as honest as possible. If you have thought of a few, the app will create a so-called picture for each question to improve communication with your idol.

No. 3 You must try to give feedback after the app has created the image to entice the app to develop a short story from the image of your question through the app

No. 4 Your 13 thought-out questions contain, hopefully, enough information for the image creation, then after the image creation, the app generates a short story from your 13 described questions that you had implemented in the app

No. 5 If you receive a short story, it will be created for you in a flip book with the appropriate sketches and scribbles

No. 6 Now you have the right input to get the exact answers to your 13 questions from your idol

No. 7 Send this thumbnail to your favorite idol via Instagram and hope that you or he sees it, if that is the case, the idol can reply to it with the same app and have their individual thumbnail of answers sent back to them as a flashback

No. 8 If you do not receive this message or Das Daumen Kino or do not want to reply, you can send it to other users of the Dreh Karussell and hope that you will receive your answers from the Karussell users on the Internet via Daumen Kino

No. 9 Finally, inspire your idol with a visual language that should lead to a memory of certain times and scenes that you experienced together at that time.

No. 10 If you managed to give her a flashback, you get points from the app. You can use

these points to present her with a great gift from the flashback library. In this case, I would send her a sloth or a polar bear baby cuddly toy or a portrait picture from the answered questions from the flip cinema.

No. 1 You have to try to control a wrecking ball and throw the monsters that have been generated after shaking the smartphone out of the display

No. 2 Once you have generated the monsters, you must also shout the correct monster names into the microphone that are displayed on the scoreboard in order to freeze the monsters that are moving quickly and safely on the smartphone and hurl them away with the wrecking ball

No. 3 If you have the monster "monk" on the display board, you must now speak the letters into the microphone. These will then appear on the smartphone display, scattered of course. Drag the letters into the monster "monk" using drag and drop.

Touch to freeze it

No. 4 Once you have frozen the monster, you can now use the wrecking ball to swish the monster out of the screen

No. 5 Try to freeze multiple monsters at the same time to get a combo to generate points

No. 6 For each frozen monster you receive points in time that are added to your timer, the game runs on time and this must not run down to zero, otherwise new monsters will be generated for the level and fill the entire smartphone display

No. 7 The background of the level is generated by Google Maps and varies per level passed and changes gradually with each new level

No. 8 Try to make as many combos as possible to collect points to ultimately reach the high score, you must reach a certain number of points per level to get to the next level

No. 9 Use the wrecking ball after you have frozen the monsters to hurl them out of the edge of the display with a swish, as mentioned above. Once you have hurled all the monsters away and cleared the display and reached the specified number of points, you can go to the next level.

No. 10 In the new level you shake the phone again, this time other types of monsters may appear which must be hit several times with the wrecking ball after freezing in order to hurl them out of the display edge

No. 11 Collect points to equip your wrecking ball with new skill balls to gain an advantage against more difficult opponents

No. 12 Do not let the timer run to zero and charge it when you freeze the monsters by speaking the monster names through the microphone and dragging the letters onto the monsters

No. 13 Exchange the backgrounds of the levels you have earned with other users from the game and create monsters for the Internet users, create levels yourself and let the players play through them on the Internet

No. 409 Sleeplessinseattle

No. 1 You must try to free a city that has been attacked by the Martians and put into deep sleep and get it to wake up again

No. 2 First try to challenge the Martians in the city and take the elixir for the resurrection of the people from them

No. 3 For each Martian you kill, you get an elixir, which you need to wake up a human

No. 4 Use your radar to find the Martians and track them in the city. Once you have found some Martians, you must aim at them with your letter gun and fire the correct letters. This means that each Martian has a different name. You must first collect the appropriate alphabet letters in the level in order to load your cannon with them.

No. 5 Fire the Martians with the correct letters in the order of the Martian's name to turn them into an elixir

No. 6 If you have killed some Martians and turned them into elixirs, you must now use this elixir to reach the appropriate and hidden people in order to wake them up with the elixir

No. 7 These people are not actually visible on the radar, but only the color vector points of the sleeping people are displayed, each elixir therefore has a different color constellation

No. 8 To move your character, you must have walked real kilometers and integrate these into your digital pedometer in order to be able to control and move your character

No. 9 Ultimately, in this game you have to save a given number of sleeping people and turn them back into the awake state so that they can help you to finally destroy the masses of Martians

No. 10 You must also complete quests and tasks in the game to collect certain points that will be credited to your time clock

No. 11 The city is an open world and has a huge area that needs to be cleared of the Martians

No. 12 The aim is to reactivate all sleeping people and to go with them to war against the destroyers, i.e. the Martians, who keep landing with new troops on the city, which you ultimately want to take over. No. 13 Reactivate your people from the sleeping state to the waking state and lead these activated people against the Martians,

No. 410 Oohletterme

No. 1 You have to look into the camera and pronounce the given letters that are located under the notch on the display, paying attention to the high and low pitch of the vowels

No. 2 The sequence of letters is a passage of song lyrics that you have to speak

No. 3 If you have spoken an individual passage through the microphone into the smartphone, you will be put into a real-time connection with another user who is also speaking the appropriate passage

No. 4 The goal is to pronounce the song text with other users in real time, consecutively and correctly

No. 5 If you have now spoken this song text with other users in real time, you will receive points in the form of hearts

No. 6 Use these hearts to mark your favorite passages in your streaming app

No. 7 You can now link and connect these marked favorite passages in the connection circle with other users in real time and their favorite passages from other song lyrics and exchange them with each other. No. 8 The streaming app oohletterme adds the missing intermediate

words that could lead to a connection between the passages and ultimately to a new song.

No. 9 If you have now put together a complete song through the streaming app, it is now available for you to share with your favorite singer. Send this song created through the streaming app to your favorite singer via invitation link.

No. 10 Invite him or her to a real-time conversation or a chat room to talk about what should be improved or left out of the song and if the song has been marked after the discussion and corrected with certain points in the places that don't fit with special questions and colors, to decide to include and incorporate this song into your personal portfolio for the future. No. 11 Collect feedback from users for this song that has not yet been sung in the streaming app oohletterme, then place your song in a category that corresponds to the film industry to make it easier for users to find.

No. 12 If you have received the approval of the artists who hold the rights for the passages, you can now upload this song to the directory of the streaming app that you previously created together with other users in real time

No. 13 Now you have to find a singer who will sing this song, to do this you activate a live challenge in the streaming app with singers who have registered for it

Through a live, real-time voting process, the lucky singer is determined and is now allowed to sing the song and keep the rights to it. The streaming app oohletterme is financed with advertisements that are placed between the newly invented songs.

No. 412 Abifly

No. 1 You have to try to build an airport here and manage it

No. 2 Build this airport as you wish until you run out of resources

No. 3 Once you have built your individual airport, you must now try to attract customers to put it into operation

No. 4 Build hotels, gaming halls, shops, apartments, houses, shops around the airport to keep customers there and build an infrastructure

No. 5 Try to attract these customers to your airport through creative advertising

No. 6 Do not start operating the airport until you are sure that the infrastructure has been set up appropriately

No. 7 Once you have built this infrastructure and constructed the airport, open it and hope that you will reach a high number of customers

No. 8 The more customers there are around and in the airport, the more money they receive for paying fixed and variable costs

No. 9 Try to manage your business well and earn a lot of money so that you can pay your bills and possibly carry out optimizations of your infrastructure. No. 10 You have to reach a certain fixed number of customers and earn a certain amount of money in a certain time in order to win the game against your opponents who are trying to build the game according to the same principle.

No. 11 You are also allowed to visit the above-mentioned areas around the airport as a third party in your constructed airport, be it shops, gaming arcades and shops etc.

No. 12 As a pilot, you can also control passenger planes and fly to other airports and visit them to negotiate a deal between your opponents. No. 13 Build your own airlines and fly these planes to other airports yourself and receive money for it and subsequently determine the prices for your customers in all areas of infrastructure. Achieve the goals mentioned above and become a monopoly and achieve a powerful status in order to build new airports and then communicate with them to become the most powerful airport operator in the world.

No. 413 Flyatsun

No. 1 In this fighter plane arcade game, you must try to track and eliminate your opponents in the sky and in the air, you must also destroy ground air defense bases and destroy ground installations. No. 2 The game works in such a way that the other enemy opponents must first be made visible on the radar, this is done by collecting letters that must be saved and recorded in the correct order.

No. 3 The letters are scattered randomly and individually in the level, you have to catch them and bring them back to your base in order to unlock the radar for a limited period of time

No. 4 Unlock the radar and now see in your airspace which enemy aircraft are near you, search for them and try to shoot them down, for each enemy aircraft shot down you get points that you have to collect in order to upgrade your aircraft with a new arsenal of weapons after completing the level

No. 5 In addition, there are times when an enemy plane is destroyed, plus times when each different enemy plane gets more or less. The game runs on a set time in which you have to destroy all enemies in order to get to the next level.

No. 6 Try to destroy ground installations and disable air defense systems

No. 7 If you have pushed all enemy aircraft out of your airspace, destroyed them and collected enough points and kept to the given time, then you can decide on a new mission and prepare for it

No. 8 Make sure your radar is always charged, collect the technical letters in real time in your airspace to keep it always active

No. 9 Complete exercises and mini challenges to practice your skills with your new aircraft

No. 10 Watch the clock running out and assert yourself against different and individual opponents

No. 414 Edgeofmidnight

No. 1 You have to try to control a character who turns into a vampire shortly before midnight

No. 2 In the normal day mode you have to hunt criminals and when the day changes to night mode you have to protect your headquarters, the self-created prison, from vampire attacks. No. 3 Try to locate the criminals through your radar and wear them down so that you can lead them to your prison in your transporter.

No. 4 Their prison is their headquarters and they must guard it day and night unless they are hunting criminals

No. 5 Switch the game to night mode you are in the main headquarters and guard the prisoners, one thing you have to keep in mind in night mode

No. 6 At night, vampires try to break into their headquarters to free their prisoners and turn them into vampires

No. 7 They must therefore protect the headquarters every night, their advantage is that they themselves become vampires at night and take on the special abilities of a vampire

No. 8 You have to set up blockades and obstacles in front of the headquarters, install traps and face the crowd of vampires coming towards you

No. 9 For each criminal captured in day mode you get points, for each prisoner lost in night mode, minus points, which are counted as time

No. 10 Constantly recharge your time clock with new plus points in time by finding new criminals in day mode and adding a book to your prison, which you built yourself before the game.
ten

No. 11 Wait for the vampires to attack at night and defend your headquarters in your self-created prison

No. 12 The game is timed, if the vampires manage to kidnap their prisoner at night and transform her, they get minus points that are deducted from their time clock

No. 13 The goal is to cleanse city by city of criminals and bring them to their self-created prisons, to defend them at night from the vampires and not to allow their time clock to run to zero

If that happens, the apocalypse will be declared in the prison and its prisoners will try together to break out of the prison and kill the vampires.

in unbridled hordes, preparing to destroy them and kidnap the prisoners No. 14 Clean your first city of the criminals and defend your self-created prison from the vampire attack

No. 15 Travel from city to city and build prisons that you have built for the criminals, defend them in night mode and destroy the vampires who want to free your prisoners

No. 415 Afternoon

No. 1 You must try to control a character who is trying to escape from his planet, he is currently on a moon-like planet, where he is being hunted by aliens who want to destroy him

No. 2 The routes that you have to complete in this run and go game are generated by Google Earth, Google shows you the appropriate route that you have to run in order to get closer to the goal, namely the spaceship that is supposed to bring you back to earth

No. 3 You must level your character with real kilometers run from the real world, to get it running at all

No. 4 Once you have done that, start the first route with your character and follow the directions shown to you by the navigation system so as not to get lost or go down the wrong path. No. 5 You are being pursued by the aliens, they have to use the kilometers they have actually run to complete the route.

No. 6 You can reach a higher speed if you collect the right colored speed items, in this case these are letters that have to be collected in the correct name sequence of planets on the track

No. 7 Watch out for blockages and obstacles that appear on the track and can make the run more difficult, collect weapon systems to destroy the enemies that appear on the track

No. 8 If you have managed the first stretch, Google Earth will generate the next suitable stretch for you, which should lead to the destination. You choose from 3 options and decide spontaneously which direction you will run next.

No. 9 For each enemy destroyed in the run, you get plus points that are added to your total game timer, make sure that the time does not run out before you have overcome the distance

No. 10 Google Earth will guide you on the right path to reach the spaceship, follow the Navi Run Radar to avoid getting lost, if you go in a wrong direction, you must overcome it and get back on the true route

No. 11 Ultimately, you must always have enough real kilometers charged to be able to run each new route, otherwise you will stop and the time will run down and you will have to start the route again

No.416 StarfishandFlavoredDog

No. 1 You control the characters Starfish and Flavored Dog in this fun jump and run game and can switch between them while controlling these characters. No. 2 Try to eliminate the enemy gang called Bielsko by trying to capture your opponents in the game.

No. 3 The character Starfish can capture enemies and Flavored Dog can freeze the enemies by barking at them

No. 4 Run like in Spyro the Dragon/Crash Bandicoot through a level world generated by Google Maps, which is based on regions and districts of the federal states

No. 5 In each region and district there are different individual levels with blockades and obstacles and are faithfully designed and recreated

No. 6 In these levels you must try to locate and capture the enemy troops of the Bielsko Gang, this happens when you stand close enough to the enemy with Flavored Dog and bark at him, the enemy is then put into a state of shock and now Starfish can capture him with his big mouth

No. 7 Hop and jump through different shapes of levels and cross individual passages

No. 8 Follow your radar and search for the Bielskoians, in order for the radar to work properly you need to charge it with letters that you need to search for in the levels, without charging the radar it will hardly be possible to find the enemy troops and capture them

No. 9 Pay attention to your pedometer, which you charge with real kilometers walked in the normal world

No. 10 Certain areas and routes in the levels require a certain stride length, which you must have yourself in order to reach the letters that are essential for charging the radar

No. 11 Charge your pedometer and search for the letters in the level generated by Google Maps, for each letter found you will receive additional time points to charge your game timer

No. 12 Pay attention to the time, it is running against you, if it runs out, you have to start a new run from your checkpoint

No. 13 If you have found the elementary letters and implemented them in the radar, the enemy opponents will now appear on it

No. 14 Now use the radar to find the Bielskoians and try to capture them with Starfish. If you have captured some enemies, the Starfish character will swell up like a wall. If Starfish has reached its maximum size, it must bring these captured Bielskoians back to the main headquarters of the respective level under the protection of Flavored Dog in order to get points for it.

No. 15 Free the Google Maps generated levels from the Bielskoians and bring them back to the level's headquarters to turn them into flowers and plant them in your garden

No. 16 Free district after district from the Bielskoians in the levels generated by Google Maps and turn them into flowers at your headquarters to design and expand your garden

No. 17 Every transformed enemy gives you points, with these points you can update your weapon arsenal and be up to date with the latest technology in order to be prepared for new enemies in the new levels

No. 18 You can also offer your digital flowers that you grow in the garden as real flowers for sale in your own online shop

No. 19 Earn real money to finance special items and in-game

No. 20 Search the whole world with Starfish and Flavored Dog and find all the Bielskoians who are hiding from you, turn them into flowers and sell them to finance the game in the future

No. 417 BoahKonstruktor

No.1 You control a snake through an open field, you have to collect balls to make the snake grow and expand so that it continues to grow

They have to say "Wow" into the microphone at the right moment, just before they pick up the ball, to open the snake's mouth and suck up the ball. If they manage to do this at the right moment, the snake's mouth will open and the ball can be sucked up.

No. 2 Try to suck up several balls in a row to make the snake grow further. For the second ball, you must therefore write out the phrase "Boah" just before the collection through the mouth. This happens when you activate and touch the letters that appear with your finger gestures to generate the phrase "Boah".

No. 3 For the third ball, they must first collect the letters of the word Boah in order to open the snake's mouth and suck up the ball

No. 4 in the further course of the collection, start these 3 mechanisms to open the mouth again in front of the emerging balls in order to finally collect them

No. 5 You have to collect as many balls as possible with the snake to make it grow steadily, the longer the snake becomes the more difficult it will be to control and maneuver it.
ren

No. 6 For each ball you pick up, you get points that charge the timer. You have to reach a certain length of the line in a given time to get to the next level. In the new levels, you will also encounter obstacles and blockages and enemies that you have to avoid in order to get to the balls.

No. 7 You can try to shoot the enemy opponents with the items you pick up in the levels that could be used as weapons in order to clear the way for the opponents. No. 8 You must also avoid the obstacles and blockages that are on the field and not collide with them. No. 8 Stay focused and safe with the control of the snake, which continues to grow if you use the mechanisms mentioned to generate the mouth of the snake before picking up the ball.

No. 418 Bangofish

No. 1 You have to watch out for flying fish that can generate themselves again on the smartphone, with a cat's paw, you have to catch these flying fish that repeatedly generate themselves on the display, before you place a firecracker between the fish so that they double and spread out or are blown up by their size into smaller groups

No. 2 You only get the bangs when you have dragged and dropped some fish into a digital fishing net with your cat's paw

No. 3 You get a plus point for each fish you catch, and a minus point for each fish you don't catch that disappears from your smartphone display. Pay attention to your general timer, which has to be constantly charged. If the time runs out, you lose the game. No. 4 Try to meow through the microphone at the right time, like a cat, when required, to stop the fish and then catch them with a connection, a so-called combo in multiple forms.

No. 5 You get combo points for each successful combo, which you can exchange for a better or different cat paw to catch the different and individual fish that appear

No. 6 Try to catch all the fish from the display and pull them into the fishing net within a specified time. If you don't manage it, the game is considered a failure.

No. 7 Choose your favorite cat in each new level that you have unlocked and try to pull the fish from the display into the fishing net with the individual cat paw

No. 8 The aim is to clear the entire display of fish and transport the fish into the fishing net

No. 9 At the end of each level the yield is counted, each individual fish and standard fish gives you points, you must try to collect as many points as possible in each one, you use these after completing the level to possibly unlock a new cat, with a new cat paw

No. 10 At the end of each level you can use your fishing net, which is always different for each level, against other users on the Internet. You choose your victim and shake the smartphone, this releases the fishing net and the fish are released onto an opponent on the Internet who has the game on their smartphone, on the display of the Internet user you have selected.

No. 11 Ultimately, they have to play through the levels generated by Google Maps, these vary and are always different, sometimes capital cities are equipped with obstacles and blockades, sometimes landscapes as a background, which act in the game and make your game more difficult

No. 12 Pay attention to the timer and do not let it run out and catch all the fish from the smartphone display in your fishing net to get to the next level

No. 13 Play through all levels generated by Google Maps and release your fishing net by shaking your smartphone at other players of this game

No. 419 LittleAlbert

No. 1 You are trying to control a character named little Albert, he used to be a billionaire and lived in a big villa, but after an illness he can no longer remember how and with what he lived in the villa

No. 2 You must try to remember things that he had as equipment in his villa and where these things and products were located, you must find out where these things belong and where they must be placed

No. 3 Things are completely scattered around the house and need to be put back in their right place and order needs to be created

No. 4 To awaken his memory sense, you must win a Tetris level after the first successful assignment to give him another memory sense back

No. 5 For each Tetris level you pass, you get the opportunity to assign an object in his villa and place it in the right position

No. 6 Try to position all the scattered objects in the villa in their correct place and thereby gain points. In total, 130 scattered objects are not placed in their correct place, so you have to pass about 130 Tetris levels to put the object in the right place on the first try.

No. 7 Little Albert is moved with real, elapsed kilometers from the real world, which are then implemented in his digital pedometer, pay attention to the steps and try to find the object on the display board that is being sought and bring it to the right position

No. 8 You get points for each object you find and position correctly. The game also runs against the clock. If you control little Albert in the villa, place the objects you find in the right places in the correct time limit. If you don't manage it, you have to play the Tetris level again in order to be able to control little Albert again after successfully completing the game.

No. 9 Watch out for hostile people in the villa and kill them with your weapons that you received through the points exchange

No. 10 After each successfully positioned object, you can take a break in your deck chair, where you can then play Tetris again to sharpen your memory sense for the next level

No. 11 Try to bring all 130 objects to the right place and of course find them in the villa

No. 12 Make an effort to move quickly and place those items in the right places that you have located in the villa

No. 13 Firstly, you play against the clock and against another player who is trying to position these objects in the right places faster. Ultimately, you have to manage to put the objects in the right places within the time limit in order to remember that it was your villa before it was demolished by unauthorized persons. Once you have put all the objects in the right places and scared the unauthorized persons away, you can now put them up for auction online for a very low price.

No. 420 Pyramid Climb

No. 1 You must try to get a character to the top of a pyramid, which means that you try to climb the pyramid with him

No. 2 You jump from one level to the next and you have to be careful to jump off the right stone, which means you have to run around the pyramid to find the stone you can jump off of to get to the next step or level

No. 3 The stones light up briefly with a color, remember this and run to this stone to hop from there to the next pyramid level

No. 4 The pyramid partially rotates the levels around its own axis, and you have to be careful not to fall off the level, on the stones of the levels there are blockages and obstacles that you have to jump over or avoid, and enemies can also be seen on the stones that you try to get out of the way with the weapons you collect that you find on the level.

No. 5 You must try to remember the briefly lit stone and run to the position there in order to jump from there in the next direction to the right level

No. 6 The game is timed, when you are on the level, collect the time plus points to get more general time to continue playing the game

No. 7 Ultimately, they must reach the highest level of the pyramid within a certain time and be faster than their opponent

No. 8 If you have climbed the pyramid and found the flag on the highest level, you must now climb down this pyramid, the principle is the same as when climbing, pay attention to the marked colored stones in order to hop down one level from the position, defeat the opponents who prevent you from reaching the stone and avoid the obstacles and blockades that block your way to the correct position stone.

No. 9 If you have managed to bring the flag down within the specified time, the game against your opponent or against the computer player you have competed against is considered won

No. 10 Win your first game to get to the next pyramid level, these are then built differently and more varied in the future, offer new backgrounds and the pyramid is built from a different surface, in addition, the blockades, obstacles and opponents are more difficult and more difficult than before, time runs faster and everything becomes more problematic, getting the flag from the highest point, the pyramid, down

No. 421 Labyrinth

No. 1 You must try to guide a character named Taylor through a labyrinth generated by Google Maps from the regions and streets of the world

No. 2 in the labyrinth, which was generated by Google Maps, are blockages and obstacles and enemies that have to be overcome

No. 3 You carry a backpack with your character on your back, which contains bombs to destroy the obstacles and blockades and enemies in the labyrinth

No. 4 You initially only carry 60 bombs, which you use to kill the enemies, as you progress through the level you can collect additional bombs

No. 5 For each enemy hit that is knocked down with a bomb, you get a heart credited to your account, try to destroy all enemies in a given time, because when the time runs out, the gate to the next level closes

No. 6 If you have destroyed all enemies in the level, you will receive hearts with which you can then open a hidden gate to the next level. The gate that is opened leads you to a new individual level Labyrinth No. 7 In addition, if you cannot destroy all enemies, you must collect solution letters in the level in order to open the gate to the next level if they are collected in the correct order.

No. 8 You must try to leave the labyrinth within the given time, because it will collapse after the time has elapsed

together

No. 9 Finally, you have 2 options to leave the labyrinth, kill all enemies or collect the necessary letters to open the next gate for the new labyrinth level

No. 10 If you have managed to leave a labyrinth or destroy all enemies in the labyrinth with your bombs, a badge will be placed on the Google Maps map in the region that was generated for you

No. 11 In some labyrinths, you will need to charge your digital pedometer with real mileage in order to be able to control your character named Taylor in the labyrinth, so keep moving and charge your pedometer display plenty of walking to be ready to control Taylor in the labyrinth

No. 12 Try to collect all the hearts to get points for them, in order to get your weapons arsenal or your special skills with upgrades in exchange for points in certain bonus levels.

No. 13 At the end of the game, find your true love, who you have been missing for a long time, and search for her in the various labyrinths of the world provided by Google Maps, place your successful badges on the Google Maps map and search for your beloved woman, who is considered missing, on all the labyrinth maps of Google Maps

No. 422 DearReader

No. 1 in this game you have to control the character Reader and lead him through a crazy world that is switched as an open world

No. 2 Try to cross different passages with him, which means you have to avoid blockages and obstacles and collect different books that you can locate with your radar

No. 3 In each book you find there is a passage that tells you how and where to go next, read the passage and you will get to the next step in the open world

No. 4 Try to collect all the books and combine the passages contained in the books into one construct

No. 5 Each book is protected by monsters, you have to kill and destroy these monsters by using your arsenal of weapons, which you find on the way there and configure together

No. 6 Try to find the right weapons to kill the individual monsters, because each monster has to be killed with a specific weapon. If you kill a monster, you get a letter that has to be integrated into the passages of the book to complete the passage.

No. 7 Once you have freed the book and received the passage, you must integrate the letters given out by the monsters into the passage and complete the passage in a meaningful way so that it makes sense

No. 8 If you have received and completed the first passage and read out the meaning with your character, the content leads you to the next checkpoint, where there is another book guarded by other monsters

No. 9 So they roam the map with their radar for the new books and the passages they contain, which they then have to put together into a complete paragraph and finally into a story

No. 10 Once you have put your story together in the open world and made sense of it, you can now share this story with other users in the game. There are countless possibilities and versions of the story, so start looking again for another version of the story. Exciting challenges and creative quests await you, and many different and individual opponents are waiting for you to fight them.

No. 11 Pay attention to your radar, which must be constantly charged with kilometers from the real world to show you how far you can move with your character,

No. 12 Make an effort to constantly charge your pedometer by adding enough real-world kilometers to your digital pedometer, running or walking in the real world to keep it going

No. 13 Otherwise you won't be able to get to the places where the books are hidden and so you can't put together the missing passages for your story, so stay constantly on the move with your smartphone and use your steps in the digital game, according to your sense, to get to the places, to find the books with the passages and to destroy the monsters that contain the missing letters for the passages.

No. 14 Once you have put your story together, you can send this wonderful story to your loved one or friend in a printed book to get her excited and show her how much you love and care, hopefully she will read this unique story and get in touch with you again

No. 423 Glitch

No. 2 You use a gift radar that shows you how far and where these gifts are, load this radar with real kilometers walked to get a pedometer display, each gift has a certain range that you have to cover to get to the place where the gift is

No. 3 You also have to go through a training camp beforehand to learn how to break into the houses of the rich in order to get their Christmas presents

No. 4 Once you have completed your training and learned the skills to break into houses unnoticed, all you have to do is charge your radar and use the directions that are suggested to you, as well as getting the perfect clothing and face masks to get past the security guards unnoticed

No. 5 Once you have made it to the first gift house of the rich man, you must now, in the best Metal Gear Solid manner, try to get past the security guards, put on the appropriate clothing and especially your face mask on your face in order to transform yourself

No. 6 It is important that you have collected the appropriate words on the way to the house in order to enter them in your persuasion book, which you use when someone speaks to you to lie to them and talk to them in such a way that they believe you that they belong to the community of the house.

No. 7 If you have managed to get into the house, through your disguise and the appropriate excuses, you must now turn off the alarm systems and focus on the radar, which will show you exactly where the presents are

No. 8 The game is of course time-based, once you have packed the presents in your sack and secretly smuggled them out, you must now load them into your van, which you previously stole

No. 9 Now you have to drive through the city in a given time and present the gifts to the poor and needy people, for example visit a kindergarten or a school where you give the gifts

No. 10 Don't get caught by the police, pay attention to your speed limit restrictions and drive carefully to the drop-off destinations

No. 11 If you have robbed the first house of a rich person at Christmas time and distributed these stolen gifts to the right places in the city, you will receive additional points plus to recharge the timer in order to continue playing the game

No. 12 Find the next house, study the security guards and the employees by getting a look at them, collect the right words that can be put together to form suitable sentences in order to fool the people if they are approached, see Alibi Book

No. 13 For example, if you have taken a look around the house during the night, you are now planning the next break-in in the best Mission Impossible manner,

No. 14 You have to complete the district and the break-ins in a given time, otherwise the police will get involved and you have to deliver the gifts to the right places in a given time in order to receive points plus to get to the next districts

No. 15 Finally, they must clear out all the rich districts and the houses therein with their gifts before Christmas Day and steal the gifts and give them to the most needy, leaving no mishaps and remaining unnoticed when carrying out their plans

No. 424 Paris

No. 1 You control a character named Paris, he has two split personalities, you have to complete the following task with him

No. 2 You have to collect important information and data in the capital, which is individually generated for you as a starting point. This happens when you are in this city and accept orders to get this data and information.

No. 3 You have a Love Radar that shows you where the clients can be found, visit the client who gives you an order, in the sense of the content

No. 4 The client gives you a sum, namely money, if you complete the order within a certain time

No. 5 Once you have accepted your first assignment, you must read through the contents. In the first assignment, for example, it says that you should steal the car of another man who has cheated on his wife. In the second assignment, you must find out which man is cheating on a married woman and in the subsequent assignments, you must find out fraudulent schemes that have been committed by

married men. No. 6 You are initially a man, but you can switch in the game and get the assignments as a woman to find out what plans the cheating

women have for their husbands. No. 7 Complete the assignments as a man or as a woman and receive the money from the client in return to get the right equipment for the other assignments. No. 8 Once you have earned a certain amount and made

a name for yourself in the capital, you will receive a travel permit for other capitals in the world, where other quests and tasks in the form of assignments await you.

No. 9 You have a certain amount of time in which you must complete the tasks. If you complete the tasks in the given time, you will receive hearts. You must collect these in order to keep your heart meter or scale at a high level. No.

10 Only when this meter is full can you travel to another city to receive other tasks. No. 11 As a detective, complete the tasks set by the clients in order to catch the fraudulent men and women red-handed and steal important information and data about their relationship. No. 12 Bring the data and information to your clients and receive money for it to finance your equipment for the future, for the other capital cities. No. 13 Pay attention to your pedometer, which must be constantly charged with the kilometers walked in the real world, which you transfer to the digital game in order to set the character Paris in motion.

No. 425 Biggerthantheholesky

No. 1 You must try to illuminate the words that Taylor shakes out of her smartphone at midnight with a flashlight and capture the words that appear in color with the correct flashlight, capture the words with the flashlight at midnight on the line of words given by the scoreboard, which you then make stand in the air

No. 2 The passages of your songs are shown on the scoreboard, you must now use touch to combine the correct words, which are marked in color, into 3 words in a row, and drag and drop them into a leaf bag. A bare tree is shown in the middle of the playing field, the more words you put into the leaf bag, the more a stem or branch grows out of the tree.

No. 3 Try to illuminate the correct order of words that match the text or song passage that is being searched for on the display board with the flashlight. If you have illuminated 3 words that fit together one after the other and contain part of the song passage, you can drag and drop them (finger touch) into the leaf bag.

No. 4 Try to fill the entire leaf bag so that the bare tree in the middle of the display produces branches and stems

No. 5 If you have pulled a passage complete with the required words in the correct order into the leaf bag, a heart will now grow on the branch or stem of the tree

No. 6 Try to capture the complete passages of the song one after the other to fill the tree with hearts

No. 6 If you have illuminated the entire song with the flashlight and caught it and pulled it into the leaf bag, hearts will now grow on the branches or stems of the tree

No. 7 Now Taylor starts to sing, when the tree is full of hearts, you must now tap the hearts in the given order, because these hearts turn into instrumental notes that you must follow to give Taylor the background beat that matches your voice

No. 8 You are required to tap the right places on the hearts aka sound notes so that Taylor can finish singing the song

No. 9 If you make a typo, you have to start over to light up the words to the beat and put them in the leaf sack, because the heart notes will disappear from the tree again if you don't stick to the right order

No. 10 Try to complete the beat along with Taylor's voice to play the complete song. If you have done it, the tree will start dancing and you will receive this song for free download on your smartphone.

No. 11 Challenge Taylor to shake her smartphone several times a week, because she starts the game, and you will be individually selected to play the game with her in order to possibly get her new songs in the future

No. 12 If you are the chosen one, prepare to learn the song by heart beforehand in order to better illuminate the order of the passages of the new song and to connect and link them with the word sequences

No. 13 If you have successfully completed the game, you can now exchange songs with another Swifti who has earned a new song and have a conversation about it in order to upload it to the streaming app, see oohletterme.com

No. 426 HighIdentifily

No. 1 You must try to find out an infidelity between a woman and her fiancé, for this you travel through the famous capitals of the world and collect through the collection of essential and important letters, information and data about these two personalities, because you know from your heart that these two, although they are engaged, are not suitable for each other

No. 2 Try to find the letters using vector points in your radar, which then combine them into a word

No. 3 Combine several words into a sentence, these sentences and the letters that formed the sentence have been scattered around the world by these two people in order to deactivate their speech. No. 4 In this open world of capitals, various tasks and quests are waiting for you that must be completed in order to get the valuable letters.

No. 5 For example, if you have stolen the safe in the capital of New York and recorded its letters, you must now visit other places in this capital to find the remaining letters and integrate them into your High Identifily book

No. 6 Travel to the different capitals and look for the important letters for your book, which you then have to put together like a puzzle that works when you put singing notes on the letters and make the right sound. If this sound matches your heart, the letters are put together to form a word and then a series of words form a sentence that you then sensually link together and use to create a song that you could send to the two lovers in the future.

No. 7 You have to put the right notes on the right letters to get a sound, if it fits, then the letters link together to form word sequences and these combine to form a meaningful song

No. 8 If you have a song in each capital that corresponds to your heart, put together the letters you found and created a complete album as a songwriter, send this loving and individual album, as an independent songwriter, to the address of the two fiancés and hope to get their attention

No. 9 Finally, you have to create an individual beat for each song you have put together, you do this with the Musfletfan.com music machine on your smartphone or PC

No. 10 Send these beats to the oohletterme.com streaming platform and expect the feedback from the two fiancés on this platform, because this couple knows the industry

No. 11 Hope this couple refines their lyrics and creates the right connection with the beats they mentioned on oohletterme.com

No. 12 This is how a new digital album is created from a computer game, for the gamers of this modern age, in the best name of their high identity character of the future

No. 427 WCS

No. 1 You must try to reach an unknown person on WCS by finding the right song or sound on oohletterme.com to tell her how nice you think she is

No. 2 To achieve this, you must have walked a certain number of kilometers in a month in the real world to unlock the song or sound for you

No. 3 If they are trying, they can even choose one from the various categories if they have completed the required number of kilometers in the real world

No. 4 To unlock this song or beat, you just need to log in with your special pedometer and generate the required kilometers on it

No. 5 If you have found a personal song or beat, send it as a message to the unknown personality on WCS, hope that this song or beat will appeal to the personality, if it was chosen well, the person will give you a like, then you can then send them personal messages, pictures, etc. Voice messages and a conversation about the selected song to tell them in summary that you may have a crush on them.

No. 6 Try to make it clear to her that the song or beat has a background, namely the kilometers run for it in the real world

No. 7 Get her excited and tell her that you have run about 40,000 kilometers, in my case, and that you have given her a complete album for free

No. 8 If you have aroused her interest and opened her heart with this album, hope that this snow on the beach woman does not deceive you and is true to you

No. 9 Otherwise, as revenge, send her some sounds and texts from oohletterme.com, from her favorite diss category, to make her look ridiculous, of course as revenge if the connection between them did not work out on a love basis

No. 10 Hope that the stranger will take an interest in you and that she will fall in love with you with the album you gave her (in my case), which you exchanged for your kilometers, and that she will keep the connection between you both alive

No. 428 Thegreatwar

No. 1 In this game you try to control a spaceship that roams through the galaxy, you have to try to collect letters in the space on the way to the planets, which you then use to start up the resource vehicle, which has to collect resources on foreign planets.

No. 2 Try to collect the right letters during your journey through the cosmos, in each letter there is an energy source that you need to start up the vehicle's resources

No. 3 If you have collected the given letters in the correct shape and color during your flight through the cosmos, your energy resource display for your vehicle will be filled up on a scale.

No. 4 Now you have to look for other, foreign planets in order to settle on these planets with your resource vehicles, which now have enough energy

No. 5 If you have found a resource-friendly planet through your radar that has the resources you need and demand, then settle down and start the mining process with your special machines

No. 6 Make sure that you remove the resources and return to the spaceship in the required time, and you must also send an armed crew to protect the resource vehicle in case alien planet inhabitants or monsters try to attack them.

No. 7 Collect the required resources with your machines within the given time and do not get involved in a fight with other troops of the alien planet

No. 8 Once you have collected enough and the required resources, return to the spaceship to collect them.
exploit

No. 9 With the resources you have collected, you can now try to build a small village in the spaceship, like in a construction strategy game, you build your infrastructure and follow the rhythm of your civilization, which you slowly begin to build on the spaceship.

No. 10 Continue flying through the galaxy and search for more resource-friendly planets where you can find and mine more needed resources

No. 11 Continue building your civilization on the spaceship and establish a stable infrastructure that resembles a small city

No. 12 Continue to develop and expand your spaceship to expand your ever-growing infrastructure

No. 13 Finally, you must establish a functionality that resembles a city and keep it running, after the establishment of this city, research other trade planets with which you

, then trade to generate new technologies

No. 14 The aim is also to transform the mother ship into a functional city and to promote the expansion of the spaceship in order to prepare for a war against alien peoples from planets.

No. 15 They must find a planet with their mother ship where they can eventually settle in order to establish their home from there and create a world empire that can defend itself against other planets with their army. From there, they plan the development of the infrastructure and build up a military force that can invade other planets.

No. 16 The goal is to take over other planets in the cosmos with their military force and its mobilization, and thus become Mister Universe in the end

No. 1 You have to try to throw a small ball into a larger one in order to attach it there. The balls have different colors. For example, you have to throw a small green ball into a large ball that is green, then a medium ball, so that the large ball then picks them up.

No. 2 Once you have moved the different colored small and medium balls into the large balls, you must now wait for the large balls to connect with the others that are on the display.

No. 3 The big balls connect automatically, if you stand close to the individual big balls, wait until 6 big balls have connected together and form a giant ball

No. 4 If giant balls have now formed, you must now try to torpedo them with your character using a harpoon. Shoot the harpoon at the giant balls, they will split and then divide into other sizes, which you must then break down until no ball is left.

No. 5 For each colored ball you hit you get plus points, if you hit it with the right colored harpoon, switch the color of the harpoon and aim with the right color at the right colored balls, if you hit the ball with the wrong color, you get minus points

No. 6 All giant balls must be shredded to their smallest multiple and must be hit by the harpoon so that they finally dissolve

No. 7 If a ball hits your character that is on the bottom of the screen, you lose a life, you start with 3 lives at the beginning of the game

No. 8 While you are crushing the giant balls, you have to create giant balls again, this happens when you push the colored, small and medium balls into the big colored balls with your cannon

No. 9 Finally, you have to quickly create the giant balls, crush them into their multiples until no ball is left on the display

No. 10 You have set a timer, in this time, which is set, you must clear the balls from the display and clean the display, only when the display has been cleared of all the balls, the level is considered passed

No. 11 The levels are structured differently, they have different properties and shapes, blockages and obstacles, which can vary from level to level

No. 12 In addition, in addition to the harpoon, they receive other weapon systems in the middle of the game that seem particularly useful to them and can become helpful

No. 13 Play through the levels on the World Map and become the new jambakaramba player

No. 430 Knobbel

No. 1 You have to try to control a garlic cannon to scare away vampire faces from the display, this works by first collecting your garlic ammunition from the display of the smartphone by touch

No. 2 The garlic cloves will serve you later as ammunition for the garlic cannon, try to put your cloves on your cannon by drag and drop

No. 3 While you do this, the cannon automatically hurls the processed garlic onto the display of the smartphone, varying the garlic is now scattered on the display of the smartphone

No. 4 Now vampire faces appear on the display and try to aim at your cannon to make it unusable, you have to press the buttons a and b at the right time to make the garlic explode to blow the vampire faces away

No. 5 For each exploding vampire face, you will receive time points plus, credited to your credit timer, quickly press the a and b buttons on your screen, up and down, alternately, to activate the garlic for the explosion

No. 6 You get minus points if you don't catch the vampire face, pay attention to your life bar, namely that of your garlic cannon, which can shrink or grow

No. 7 The vampires try to aim their projectiles, namely bats, from their mouths at your garlic cannon to ultimately render it useless, watch out for the bats, which you can also catch in your spider web

No. 8 If you have destroyed some vampire faces that appear small, medium and large and completely removed the display from you, then you can go to the next level

No. 9 In addition, you get points for catching bats, with the points you can upgrade your cannon in the next level, which means better aiming and accuracy

No. 10 The faces of the vampires are the faces of Facebook friends or unsuspecting Facebook members, chase them away, until midnight, the vampire faces from your smart phone display, otherwise more and more new faces will appear that are more difficult to hit

No. 11 In addition, the vampire faces, if they have not been hit with the garlic cannon, speak words out of their mouths, which they must also be given vector points in the correct order in order to be able to resolve the letters, otherwise you will receive minus points, which will be deducted from your points account

No. 12 Make an effort to orient yourself quickly and to activate the sequence of the a and b buttons at the right time in order to finally scare away the vampire faces from the display

No. 7 If you have now progressed through the routes you have earned and have managed to complete them, you can earn new Warpo spaceships and upgrade them

No. 8 Collect enough colored vector points in the correct order along the route to exchange them for points. Once you have exchanged these for points at the end of the route, you can use these points to secure new upgrades or weapons for your Warpo spaceship.

No. 9 Ultimately, you must reach all tracks in the top 3 places to be able to play the game completely

No. 10 There are also acceleration fields on the tracks that you can use to reach a higher speed and thus get to the warp gates faster and from there to get closer to the goal, namely the end goal of the track. No. 11 Also pay attention to obstacles and blockages and items that you have to avoid on and while driving the warpo spaceship in order not to stop or lose speed.

No. 12 Play multiplayer with several people at the same time and challenge the best trackers and their time records to compete against you

No. 13 Exchange your Warpo spaceships with other users from the Internet and reach the top 3 places mentioned to get to new routes, or build your own favorite route with different colors and options/ components, the art of building together to create a structure.

men

No. 436 Halloweenmen

No. 1 You have to try the following in this Halloween game: you have to try to catch ghosts with the Halloween basket, which means that you have to catch the ghosts that are on the smartphone display, you have to make sure that the ghosts do not multiply, which means that when two ghosts meet, they double or triple in number. No. 2 You have a Halloween basket in order to be able to catch the ghosts there, this only happens if you first freeze these ghosts with a

pumpkin, this happens when you fire these pumpkins at the ghosts with a sparrow slingshot and hit them, you pull the sparrow slingshot backwards and fire the pumpkin at the ghosts, if you hit a ghost, it will be frozen

No. 3 If some of your ghosts are frozen by the pumpkin, you can drag and drop these ghosts into the Halloween basket to get time points. For each ghost caught, you get 1 second added to your timer, and for each ghost not hit, you get 1 second minus as time point.

No. 4 Try to hit all the ghosts that are trying to multiply on the smartphone display and catch them in the basket. If you run out of time, the game is lost.

No. 5 They therefore try to place the pumpkins on the ghosts in a targeted manner in order to freeze them and thus make them immobile. While they are aiming with the sparrow slingshot, they must activate the target on the ghosts. Only when the target flashes and is activated can they fire the shot.

No. 6 You also need pumpkins as ammunition, you get this ammunition when you drag the flying pumpkins from the display to the sparrow slingshot with touch and then fire them at the ghosts

No. 7 There are special shapes of pumpkins and colors that you have to collect in flight, the ghosts are also available in different colors and sizes on the smartphone display

No. 8 Collect the matching colored and sized pumpkins by touching them and drag them onto the sparrow slingshot, as this is your weapon that you can regulate to fire the varied ghosts with the captured pumpkins

No. 9 Use the sparrow slingshot to hit the ghost of the same color and size with the correctly colored pumpkin to freeze it, then grab the ghost's enclosure, drag and drop it and put it in your Halloween basket

No. 10 Try to catch all the ghosts in different shapes and colors and reach them within the given time and remove the display from the ghosts

No. 437 Gunglok

No. 1 You must try to control a character named "gunglok", the character has a small arsenal of weapons for the first time and can upgrade himself by picking up weapons he finds

No. 2 You control this character like in a 2D shooter through fascinating worlds and have to destroy enemy masses with him

No. 3 You must try to eliminate the numerous opponents who try to take time away from you

No. 4 For each enemy you destroy you get individual time points, for example you get 1+ time for the easy enemies, 2+ time for the medium enemies, 3+ time for the difficult enemies

No. 5 If you are hit by an opponent, your timer, which is 60+ seconds long, will be deducted from your time depending on the difficulty of the opponent

No. 6 You must try to eliminate the enemies and try to complete the level until the timer runs out

No. 7 On the way you collect various weapon systems and use them against the enemy troops

No. 8 You can also unlock a super vehicle while you go through the level, you just have to collect the name of the vehicle using hidden letters, this will appear when you collect the letters in the correct order No. 9 If you have completed the level before the timer runs out and charged your timer in the level by destroying

enemies, you can now move on to the 2nd level, where you can take your timer+ with you to complete the level

No. 10 In some levels, a step counter is displayed that must be followed, so you must load your character with steps from the real world (pedometer) in order to play this level and control the character, you must have walked enough steps in the real world to beat some levels that set a certain step counter

No. 11 Also try to collect vector points that are scattered in different colors throughout the level to activate the weapon systems and make them appear, because without the useful weapon systems, you cannot destroy certain enemies and thus cannot collect time+ to complete the level

No. 12 Watch out for blockages and obstacles in the level, jump and hop through the level and destroy as many enemies as possible to charge your timer positively and then take it with you to the next level

No. 438 Mr.Rubbish

No. 1 You must try a character name " Mr. Rubbish "

at any time when the display is filled with vector points, this means that while the display is filling up, you use the character "Mr. Rubbish" and try to erase the required vector points that are searched for on the scoreboard

No. 2 Try to remove or massage or wipe away the displayed colored vector points with the correct order of your eraser

No. 3 After each successful retouching of the colored vector points in the correct order, letters appear in the places that must then be linked to each other via drag and drop or touch to touch to form the required words that are to be searched for.

No. 4 The letters form words when they are linked together, make sure to find the correct order and link the letters together to form the right word

No. 5 For each word formed, you receive points in time that are credited to your time clock. Do not let the clock run down and focus on new vector points that you have to wipe away to make new letters appear, which you then connect together to form a word to receive new points in time.

No. 6 Try to wipe away the entire vector point area and let letters appear, which you then connect to get points in time

No. 7 If you have linked all the words you are looking for and wiped away vector points, the playing area is freed up and rows of numbers appear in the freed up places of the letters, which must be added together, and a result appears on the new display board, which must be found together.

No. 8 Connect the numbers with the calculation symbols to each other to achieve the required result, touch the calculation symbol and touch it between the numbers, which should lead to a correct result

No. 9 Finally, you have to complete the results and clear the playing area of numbers again. Once you have done that, balls will appear which you can use a harpoon to try to bring into your smallest possible size and reduce until no more balls are visible on the playing area.

No. 10 If you have managed to do this and collected enough points and have not slipped into the minus due to error-finding, take these with you to the next level and now try to take these 3 game modes that were explained in a new level with a new background and try to master it.

No. 431 Mr.Rubbish PLUS

No. 1 The extension of "Mr Rubbish" is in contrast to the normal game that you try to wipe away enemy troops that you try to hit with your projectiles from the smartphone display by touch in order to make them disappear from the playing area

No. 2 You have to try to swipe away every enemy with swipe touch generation from the screen, this means that for some enemies that fire projectiles at them you need 1 swipe, for the other 2 swipes, and for the 3 you need several swipes to remove them from the smartphone screen

No. 3 You must try not to hit the projectiles with your finger, otherwise you will get time deductions that will be taken from your timer, for every enemy you wipe away, you will receive plus time, you must reach a set time to get to the next level
